Date of issue

07 March 2027
Expiry date

This Certificate remains valid till date stated above, unless suspended, withdrawn or terminated. This certificate will not be valid if the manufacturer makes any changes affecting product conformity, which have not been notified to, and agreed in writing with ESL. This Certificate is an electronic document and shall not be reproduced (in any form) except in full. Certificate holder is under an obligation to make references to issued certificate only in conjunction with product(s) that conform to evaluated product construction. Prior to use of this certificate, please verify its validity at ESL.directory

Appendix to Certificate of Conformity

No: **ESL-24-11588**Issue: **01****CERTIFIED PRODUCT:****Product Description:**

SHERA Fiber Cement is a non-asbestos fiber-cement flat sheet composed of cement, cellulose fiber, refined sand, synthetic gypsum, and mineral additives - manufactured through an autoclaving process to acquire durability, strength, and stability.

Reaction to fire classification:

Product Description	Test standards	Classification
Product name: SHERA Fiber Cement Product type: Non-asbestos / Autoclaved - Fiber Cement Board / Flat Sheets Overall Thickness: 3.2 mm to 35 mm thick Density: 1350 ± 50 kg/m ³	EN 13501 -1:2018	A1

Limitations:

1. This certificate covers the product's standalone performance limited to the fire test response classification and does not cover any weather performance, fire-resistance characteristics, and large-scale fire-propagation characteristics performance.
2. This certification covers only those product/material type specifications described in the assessed test reports.
3. The composition of the SHERA Fiber Cement has been evaluated and held in the ESL file. This certificate applies solely to the specific composition documented. Any deviation or variation in the product's composition from the documented specifications will invalidate this certificate.
